Dear Parent/Carer

SatchelOne Home Learning Platform

The Academy has recently reinvested in the SatchelOne home learning platform (formerly ShowMyHomework). The purpose of this software is to support students in organising their home learning activities whilst also providing parents and carers with a real time overview of the tasks set and whether earlier work has been completed.

SatchelOne offers both a website and mobile application which can be downloaded and used by parents and students. Details of how parents can log on are attached overleaf and students will have been guided through logging on by the end of this academic year. Your child has been given a separate sheet detailing all parent and student log in details.

For further guidance please visit <u>https://help.satchelone.com/en/articles/5472656-parent-video-guides</u> where you will find a selection of short videos to support you and please note that if you have previously had access to ShowMyHomework then you may have to use the password reset function along with your email address in order to access your account. I have also included details of how to add additional students to your account using their unique pin code.

In the new academic year, all homework will be set via SatchelOne and you will be able to view the completion status at your convenience. Should you have any queries or concerns please contact your child's Form Tutor in the first instance and we will get back to you as soon as possible.

Yours sincerely

Gavin Parker-Smith Lead Teacher
