MMCI/KRE

19<sup>th</sup> March 2026

Dear Parent/Carer

We are aware of some recent social media posts and comments referring to a possible outbreak of meningitis.

We want to reassure you that there are **no confirmed cases of meningitis within the Academy**. We are in regular contact with relevant health authorities and will always follow their guidance to ensure the safety and wellbeing of all within our community.

We understand that reports like these can be worrying, particularly when they circulate on social media without clear verification. I know I've stated this a few times in recent months, but updates relating to anything within the Academy will always be shared using our official channels, and therefore content seen on the likes of social media is often inaccurate and/or purposefully misleading.

We encourage families to rely on information from trusted and official sources, and to contact the Academy directly if you have any concerns.

As always, we remain vigilant. Should there be any confirmed cases or updates that affect our community, we will inform you promptly.

Thank you for your continued support and cooperation.

Yours sincerely

Mike McClelland  
Interim Principal
