18th April 2024

Dear Year 11 Parents/Carers

This will be the first in a series of weekly letters as we approach and proceed through the GCSE Summer Exam series. I will use these letters to keep you fully up to date with events in school, revision activities, exam dates and anything else that might be important. Exams are stressful for both students and parents so please know that we are here to help in any way we can.

Our Year 11s have been very impressive over the past few weeks, the feedback from Interview Day was brilliant and the 8am attendance to school in general has been excellent. We are now in the final few weeks of preparation and revision is all important. I would expect students to be conducting a significant amount of time outside of school to revision. In a few short week's time the exams will have been and gone – then will be the time to relax.

The main events for Year 11 next week are:

Week Commencing	Monday	Tuesday	Wednesday	Thursday	Friday
22 nd April			GCSE PE Moderation in School Year 11 SLT Parents' Evening	GCSE PE Moderation at the Sheepmount (leaving from school)	

You will have a received a letter about the Year 11 Parents' Evening, this will be the last event of its kind for your child. We will be looking at the recent Mock Exam results, your child's intended next steps and how we make sure they get there together.

As the weeks progress I will keep you updated with further events, timetable changes and exam dates. Please be aware that there will be no study leave and Year 11 students will be expected to attend full time until the last full year group exam which is Physics on Friday 14th June. There are still some exams after that date for many students.

Thank you again for your support.

Yours sincerely

Richard McGuire
Principal
